SUMMARY

Full Stack Software Engineer with hands on experience building production ready web systems using NestJS, Angular, and relational databases. Experienced in backend architecture, REST APIs, GraphQL, authentication and authorization, and database modeling, with strong exposure to cloud platforms and containerized deployments.

WORK EXPERIENCE

Software Engineer intern | Almajdouie Motors

Dec 2025 - Jan 2025

- ❖ Worked on a WhatsApp chatbot using Botpress and JavaScript, implementing new features and conversation flows based on business requirements, fixing logical issues, and performing end to end testing across web and WhatsApp channels.
- ❖ Contributed to system analysis, translating business requirements into technical solutions and supporting project documentation.
- ❖ Worked on a full stack web system consisting of two Angular applications (job application portal and admin dashboard) integrated with a centralized backend.

CERTIFICATIONS

Oracle Cloud Infrastructure Architect Associate (OCI) | [Link](#)

Jan - 2025

- ❖ Compute, Storage, Networking, IAM, Monitoring.

Oracle Cloud Infrastructure DevOps Professional (OCI) | [Link](#)

July - 2025

- ❖ CI/CD pipelines, containerized deployments to Oracle Kubernetes Engine (OKE), Infrastructure as code (IaC).

Oracle Cloud Infrastructure Networking Professional (OCI) | [Link](#)

Aug - 2025

- ❖ VCN design, DNS, VPN, security lists, Hybrid Networking Architectures.

Technical Skills

- ❖ Frontend: React, React Native, TypeScript, JavaScript, Tailwind CSS, Bootstrap, Angular, Expo
- ❖ Backend: Python, Django, Nest.js, REST APIs, GraphQL, MySQL, Postgresql
- ❖ Cloud & Tools: OCI, Docker, Kubernetes, CI/CD, Git

EDUCATION

Bachelor's Degree in Computer Science | Arab Open University | 3/4.0

May - 2025

- ❖ Relevant coursework: Cloud Computing, Operating Systems, Web Development, Algorithms & Data Structures, Database Management.

PROJECTS

Job Application Portal & Admin Dashboard (Almajdouie) - (Angular, NestJS, MySQL, REST APIs)

- ❖ Built a production full stack system with a job application portal and an admin/HR dashboard, connected to a centralized NestJS backend.
- ❖ Designed backend structure including database schemas, entity relationships, validation layers, and scalable REST APIs.
- ❖ Implemented JWT based authentication and role based authorization (Admin: full CRUD, HR: view and assign applications), with role based routing in Angular.
- ❖ Developed secure CV upload and management and implemented dashboard analytics showing recent applications and application distribution by city
